PROFESSIONAL SUMMARY

Web developer with experience delivering production websites across agency, public sector, and freelance environments. Specialized in CMS-driven websites, frontend implementation, and content management within production environments.

Strong foundation in HTML, CSS, Tailwind, and modern frontend practices, with growing experience in JavaScript and React. Proven ability to manage projects independently, collaborate with cross-functional teams, and deliver high-quality work in fast-paced environments.

WORK EXPERIENCE

Modularity Studios | Freelance Web Developer
Dec 2021 – Present | Houston, TX

- Built and delivered custom websites and CMS solutions for clients across multiple industries, managing projects end-to-end from implementation to deployment.
- Developed and maintained websites using HTML, CSS, Tailwind, Webflow, WordPress, and Shopify
- Implemented CMS structures enabling non-technical clients to manage and update content independently
- Translated Figma designs into responsive, production-ready websites
- Built interactive UI elements and custom JavaScript features to enhance usability and engagement
- Managed multiple client projects simultaneously, delivering on time and within scope

Harris County | Web Developer (Contractor)
Jul 2024 – Aug 2025 | Houston, TX

- Contributed to development and maintenance of 80+ government websites, including Public Health, Engineering, and County Precincts.
- Built and updated web pages using HTML, CSS, JavaScript, Bootstrap, jQuery, and DNN
- Developed reusable components (“visualizers”) to improve maintainability and consistency
- Implemented multilingual content across multiple sites (Spanish, French, Vietnamese, Chinese, Arabic)
- Collaborated with design and project management teams in an Agile environment
- Supported accessibility best practices across public-facing websites, including semantic HTML structure and content consistency

Trew Labs | Web Developer (Contractor)

Dec 2021 – Jul 2024 | Remote

- Worked with a web development agency to deliver client websites across a variety of platforms and industries.
- Built and implemented websites using Tailwind, React, Next.js, Webflow, Shopify, and WordPress
- Collaborated with external design teams (Catapult13, La Conceptualist) to implement production-ready UI
- Improved existing websites through performance optimizations, reusable components, and UX refinements
- Participated in Agile workflows including stand-ups, sprint planning, and reviews

SKILLS

Languages

HTML, CSS, JavaScript (ES6+), SQL (familiar)

Technologies

Tailwind CSS, Bootstrap, React (familiar), Next.js (familiar), MySQL (familiar)

Tools

Git, Figma, Webflow, WordPress, Shopify, DNN, Salesforce, HubSpot, High Level
